Tutor Interview Questions

1. Tell us about yourself and why you would like to work in the Math and Stats Tutoring Center?

2. What qualities do you feel a good tutor should have?

3. What strengths would you bring to the tutoring center?

4. What area(s) of Math or Stats interest you the most and why?

Scenario: Give a typical student question with errors and have the interviewee describe what steps to take to help the student without actually solving the problem.

5. A student asks you a question about content that you are not sure how to answer. What would you do?

6. Give us an example of how you have tutored a student with a successful result.

7. If you were offered a position, how many hours would be ideal for you to work?
